Aaltio, E., & Isokuortti, N. (2022). Developing a programme theory for the Systemic Practice Model in children's social care: Key informants' perspectives. Child and Family Social Work, 27(3), 444-453. https://doi.org/10.1111/cfs.12896

Table 1. Summary of the process for generating the SPM programme theory in accordance with the SSIP (Gugiu & Rodriquez, 2007).

| Phase | Research and workshop activities | |
|------------------------|---|----------------|
| | | this phase |
| 1. Identifying key | Purposeful sampling | Previous |
| informants and basic | Formulating a researcher's theory | findings on |
| information | | SPM and RSW |
| | | evaluation |
| 2. Generating logic | Workshop 1: Introducing the researchers' theory, | |
| model elements | asking participants to refine definitions and explicate | |
| | justifications for including or excluding components, | |
| | inputs, activities, outputs and outcomes | |
| | Workshop 2: Discussing the researchers' proposition of | Notes from |
| | key approaches, theories and methods underpinning the | interview 1, |
| | SPM. Defining the concrete resources (inputs, | RSW training |
| | activities, outputs) offered by the SPM and the ideal | |
| | context | |
| 3. Modelling logic | Workshop 3: Creating hypotheses of the mechanisms | |
| model elements with | and causal chains | |
| key informants | | |
| 4. Building a rational | Workshops 1–3 and the first stakeholder meeting: | |
| theory | Negotiating with the key informants | |
| 5. Developing a | Analysing the transcripts | Transcripts of |
| programme theory | Formulating the first draft of the programme theory | workshops 1– |
| | Workshop 4: Discussing the draft | 3, interview 2 |
| 6. Prioritising logic | Revision of the draft | Notes from |
| model elements | Workshop 5, second stakeholder meeting, and personal | workshop 4, |
| | communication: Refining the revised draft | personal |
| | | communication |
| 7. Formulating CMO | Formulating tabular and narrative CMO configurations | All data |
| configurations | | |

Table 2. The intended causal chains at the practitioner level.

| Practitioner level | | | | |
|--------------------|--------------------------|----------------------------|---------------------|--|
| Resources | Context | Reasoning | Intermediate | |
| | | | outcomes | |
| Systemic | Organisation and leaders | Practitioners expand their | Intensive systemic | |
| team | who implement daily | understanding of family | practice, including | |
| + | practices and resources | dynamics and begin to | respectful, power | |
| Systemic | to support the proper | approach problems | -sharing and | |
| training and | functioning of the | systemically from | curious | |
| coaching | systemic teams, e.g., | multiple perspectives + | relationships with | |
| + | ensuring reasonable | Mutual learning and | families | |
| Systemic | caseloads and recruiting | reflection + | + | |
| weekly | the requisite team | Systemic team shares | Improved work- | |
| meetings | members | responsibility which | related wellbeing | |
| providing | + | provides emotional and | + | |
| systemic case | A team that forms a safe | practical support for | Decreased staff | |
| supervision | space for learning | practitioners | turnover | |

Table 3. Intended causal chains at the family level.

| Family level | | | | |
|---------------|------------------------|-------------------------|--------------------|--|
| Resource | Context | Reasoning | Intermediate and | |
| | | | long-term outcomes | |
| Skilful, and | The family meeting | Identifying multiple | New insights and | |
| permanent | context is respectful, | perspectives | change in beliefs | |
| practitioners | power-sharing, and | + | + | |
| who | curious | Identifying problematic | Improved family | |
| experience | + | interaction and | dynamics | |
| wellbeing | Regular and frequent | communication, e.g., | + | |
| + | meetings with the same | family patterns or | Increased safety | |
| Systemic | practitioner/s | scripts | + | |
| social work | | + | Improved parent/ | |
| practice | | Family's own | child wellbeing | |
| | | motivation for change | | |
| | | aroused | | |
