Table 1. Development-related questions in the questionnaire.

<p>Q1. Think of the experiences you have had in providing feedback about your CIS. Please indicate your responses to the following statements.</p> <p><i>Scale: Fully agree / Somewhat agree / Neither agree nor disagree / Somewhat disagree / Fully disagree</i></p>	<p>A I know how and to whom I can send feedback about the system if I wish to do so.</p> <p>B The system vendor is interested in feedback about the system provided by the end users.</p> <p>C The system vendor implements corrections and change requests according to the suggestions of the end users.</p> <p>D Corrections and change requests are implemented within a reasonable time frame.</p>
<p>Q2. Have you participated in systems development work?</p>	<p>A lot A little Not at all</p>
<p>Q3. In which ways would you be interested in participating in systems development work in the future? You may choose one or more alternatives.</p> <p><i>Scale: Fully agree / Somewhat agree / Neither agree nor disagree / Somewhat disagree / Fully disagree</i></p>	<p>A I'd be interested in showing software developers how I work and describing my software-related needs.</p> <p>B I'd be interested in participating in a development work group made up of other system end users.</p> <p>C I'd be interested in providing suggestions and feedback about how the software can be designed and changed to the vendor using a dedicated website.</p> <p>D I'd be interested in providing suggestions and feedback about how the software can be designed and changed to the vendor using email.</p> <p>E I'd be interested in telling the person in charge of information systems development for the organization about usage-related problems.</p> <p>F I am not interested in participating.</p> <p>G How else would you like to participate?</p>
